

Sevenky Technologies

Embedded Systems Internship 2023

Job Description

At Sevenky, we design, develop, and deploy hardware for applications in various domains where automation is critical. You will be working with a team of engineers to enhance hardware and software designs. Based on your initial training, experience, and capabilities appropriate tasks will be assigned during this internship.

Looking for interns/freshers with basic knowledge in the following areas:

- o Circuit Design
- o Integration using Microcontrollers
- o Programming (C/C++/Python)

Desirable Qualifications

- Final year B.Tech./B.E. in Electrical/Electronics Engineering
- Fresh graduate with B.Tech./B.E. in Electrical/Electronics Engineering (Year of Pass: 2021-22)
- Diploma in Electrical/Electronics Engineering (Year of Pass: 2020-22)

Remuneration is negotiable for fresh graduates

Duration

Minimum 3 months extendable up to 1 year based on performance.

Tentative start of the internship May 2023.

Location

Sevenky Technologies Private Limited, IIT Delhi Campus, New Delhi
